STUDENT SATISFACTION SURVEY REPORT- 2021-22

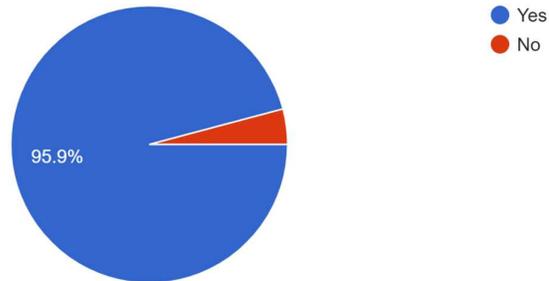

The students are an integral part of the institution. The prime measure of a college's development can be easily interpreted by the satiety of students. To capture the experiences of students for the academic session 2020-21, a questionnaires according to NAAC parameters have been framed and forwarded online. The survey includes 21 competency-based questions to which responses are given anonymously by the students of the institution. The survey components include institute-level feedback on infrastructure and learning experiences. We conducted SSS during the month of June 2022. The result of the survey will help the institution to understand both the short and long-term needs of the students and initiate remedial action to improve the facilities whenever and wherever it is required. **The outcome of the survey will provide a base to plan for the future.** The students answered all the questions in the survey with sincere thought and effort. Totally 248 students participated in the survey from various programmes. The analysis of the survey conducted shows that the satisfaction level of students concerning teaching and learning, Mentorship, and other related matters is extremely satisfactory. At the same time, the students highly appreciated and were satisfied with the implementation of a learning outcome-based curriculum which includes continuous evaluation, assessment of assignment, seminar works, and its follow-up made by the faculty throughout the semester.
