Good

Good

Very good

Excellent

Nothing

Everything is gd...

N our teacher also good teaching us. And their explanation skills also adorable... I haven't objection yet.

No complains

please provide study material.

2 conduct the awareness on competitive exams

3 Guide about future learning programmes

Average

Some how

Yes

1. **Interactive Teaching Methods:** Incorporate more interactive teaching methods such as group discussions, case studies, and hands-on activities. This can help engage students better and promote active learning.

2. **Utilize Technology:** Integrate technology into the teaching process through online learning platforms, virtual classrooms, and educational apps. This can make learning more accessible, interactive, and personalized for students.

3. **Feedback Mechanism:** Implement a robust feedback mechanism where students can provide regular feedback on the teaching methods, course content, and overall learning experience. This can help identify areas for improvement and make necessary adjustments to enhance the teaching-learning process.

Very bad study

the teacher rarely take any classes even when they do they just slide over the topics, often rendering us with either poorly explained or inaccurately defined chapters, posing us many difficulties that we need to tackle by ourselves in the final exam

To explain clearly with english and be more active

Class is not regular going on

The explanation should be more good with english.

Do Classes regularly

....

Limited faculties in some department.

Not good.

Strongly ,to great enter

Awful guidance provided by the teachers and they were gender biased while providing guidance and calculating marks. In practical examination no help or guidance was provided.

Firstly, The institution should have given the opportunity of practical learning, refreshing student mind and activities to the students.

Secondly, The institution should also have two languages class i.e an English version to the English background students and Other Indian languages version to the non English speaking student.

Thirdly, As I experience myself, a teacher of mine who taught us in Bengali language in English literature class faces difficulties since I am from English medium background. It's not my first language too. So I think the institution also needs to check the teachers capabilities and the remarks from the students.

Using more ICT Tools for our further learning,to give us more soft skill training

I love my self

The teaching should be more with english.

.....

Very excellent, good and great

No

Observation

Outstanding

Very well

1. Use better graphics and visual media to engage students well) 2. Try to reach every student and ask for their doubts. ... 3) Make teaching a two way interaction

Teaching are good

Nice

Teachers should communicate with English not in local languages

This institution is good in almost every aspect

1. Few of the teachers should behave according to their status given by exam committee in the examination hall, they should not shout in the hall...

1. It would be more better if the teachers are fully active so students could be active too
2. It would be better if all the teachers could explain more in English rather any other languages
3. Teachers should provide some activity work to the students to improve mental health

1. Check review and improve everything

To great enter , very good

*free communication

*great teachers in teachings

*development of teachings

Use of technology in the classroom

Every things is good our.. Teachers good teaching... I have not...any objection.

For the improvement of english speaking during the explanation for the better understanding

Use better graphic and visual media to engage student well. Make teaching a two way interact . Try to reach every student and ask for their doubts twice.

1. More teachers are needed 2. Installation of projectors in classroom 3. Established appropriate libraries

Need to more take class

Every thing is good....our teachers good teaching us.and their explanation is adorable...I haven't any objection

...

1. Improve the quality of teaching.
2. Try to take the classes regularly.
3. Be free to your students help them to understand the difficult things easily.

Learning

We want more great professors and lecturers in our class , Our college should focus on visual and practical learning or teaching more than theory, which is not done by our teachers. We want best mentor for our great future. Thank you.

Explanation in english

Give some important point

Explanation with practical example

Teachers should motivate weak students so they can improve

Completion of syllabus must be 100%

I think teachers should talk to the students more about their problems

1)Use better graphics and visual media to engage students well. ... 2) Try to reach every student and ask for their doubts. ... 3) Make teaching a two way interaction.

Hard work, constantly doing sir's class , discuss important issues with sir

Very well

Improve students activities- provide-like a sports items open Gym many interesting your institute

Nothing

Suggestions

No need

1) Use better graphics and visual media to engage students well. ... 2) Try to reach every student and ask for their doubts. ... 3) Make teaching a two way interaction.

This institute does not encourage or provide any internship or placement guidance, which is very beneficial now a days. Also the Education quality is very poor , we need latest educations in our B.sc degree like Computer programming, Buisness knowledge and field visits, so that students get enough opportunities to get ready for industrial relevance.

(1) Needs to good teacher (2) Parental focus on education for students (3) Education can also be improved through discussions in schools and colleges.

I love my institution, there is nothing bad in my department they are great they are doing hard work, they're putting their so much love into it so I am blessed to be in this institutions specially in the department of English.

Here's a list of my 3 observations :

1. No help or guidance was provided for our practical experiments.
2. Even if we asked the teachers for help they were unsure about the answers
3. Practical and Internal examination marking systems were awful and the marks given out were gender biased.

1.more teacher are nided 2.Installation of projector in class room 3.established appropriate library

- 1) Use better presentation to engage students well.
- 2) Try to reach every student and ask for their doubts.
- 3) Make teaching a two way interaction.

- 1) To improve more in their teaching
- 2) Skill and
- 3) physical activity

I really like the learning experience in our institution.

According to me Should be plantation.

Our college is very nice but collage's teachers is very kharosh

We need more facilities to improve our skills, more spors activities an verious stysof sports equipment and physical education teacher (physical instructions)

Infrastructure, laboratory equipment and library set up....

1. Have a good Interactions with students
2. Lecturering with English language
3. To ensure every students have understood the topic

I suggest that if our teacher's encourage us for our goal and government gives us essential study material which are not available in our college and specifically if we find all essential books from our library then I think it's very beneficial to us and our institutions

Yes

Ok

Excellent 👍

I really agree with the teacher teaching in the class

We need English language lecturer in numerous subjects for English students

All subjects pass

LCD projector, Multimedia and Smart Board etc uses.

Regular class

1. Use better graphics and visual media to engage students well. 2. Try to reach every student and ask for their doubts. 3. Make teaching a two way interaction.

- 1)Lack of proper communication
- 2) Language barriers between students and teachers
- 3) Infrastructure problem
- 4)Lack of cleanliness on the infrastructure
- 5)And most of the employees and teachers have huge ego

Most of the students have already spoken about this problem but there is no such improvement till by now. So i really hope that the institution will work on these problems

1. Most of the teacher have communication problem with the studen.
2. Infrastructure problem
3. cleanliness

- 1) institute should provide teacher with English(English background)capabilities for the students for the English background it is an necessary needs for the students having difficulty to understand the Bengali language in most subject other than the language subject.
- 2)time should be utilised properly for classes and both teachers and students needs to be punctual
- 3)basics curriculum,extra curriculum activities should be provided (eg.educational tour etc.)for the students better enhancement in lessons and improve motivation

Teachers are really helpfull and the institute is so good

- 1)Use better graphics and visual media to engage students well.
- 2) Try to reach every student and ask for their doubts.
- 3)Make teaching a two way interaction .

Shortage of class rooms and more teachers, for best quality education and more digital and highly advanced equipment for practical work.

Thank you.

.....

1. Give attention to student.
2. Very clearly discuss all topic to student.
3. See students capability in learning.

Need more teachers.

ABC

Well it was great
